# Healthy Bodies are Made from Healthy Choices

## Total Nutrition

Our whole food multivitamin, Celadon Plus, provides complete nutritional support for optimal body function. It contains 100% of the recommended daily allowances of vitamins, minerals and more in a whole food (fruit and vegetable) supplement. Eat right, exercise and take your Celadon Plus.

## Increased Energy

Feed your cells, feel more energy! The mitochondria of each cell in our body controls the energy of the cell. CoQ10, combined with the green and white teas, along with all the fruits and vegetables, "feed" our cells the nutrition they must have to produce energy.

## Healthy Heart

Heart disease kills more Americans than any other single disease. VitaFit.Me not only has CoQ10, which is scientifically shown to help prevent heart disease, it also offers the fruits, vegetables and antioxidants that keep the circulatory system in shape.

## Flexible Joints

The body's connective tissues and muscle are all subject to inflammation. Our Resvera Flex has your joints, heart and soft tissues covered. The ability to control inflammation is well documented with Resveratrol, the key ingredient in our Resvera Flex. Supple joints mean better movement!

## Good Digestion

As the colon goes.. so goes the body. A clean and active digestive system is one of the keystones of good health. Our Probiotic Plus contains over 4 billion friendly bacteria shown to strengthen and maintain your system. This is a MUST for good overall health.

## Promotes Anti-Aging

The combination of these products are designed to help you stay young. From the anti-aging properties of Resveratrol, the oxygen increase of CoQ10, and ORAC MAX's anti-oxidant properties, your body will get what it needs to slow down the aging process!

## Immunity Boost

Protecting our bodies from disease is one of the most profound ways to live a healthy long life. The immune defenses found in our Celadon Plus, Resvera Flex, ORAC MAX and Cardio Fit are all aimed at protecting you from the inside out!

## Weight Control

As we age, we often add additional pounds to our frames increasing the load on our heart, joints, muscles and our emotions. When the combination of these products are taken on a regular basis they can help adjust the body to natural homeostasis making it easier to return to and maintain a healthy weight.

## Convenience

VitaFit.Me comes in 30 convenient daily supplement packs. There is no need to purchase multiple vitamin products, to sort pills and store separate products. It is so easy to remember to take your vitamins because you take a pack every day. VitaFit.Me goes wherever you go! Great for TRAVEL!

## Value

VitaFit.Me offers incredible value. This system is half the price you would pay for comparable products purchased separately. Plus, being bio-available, these work much better than over the counter grade synthetic supplements.
